Summary

Web developer with hands-on experience building and maintaining full-stack applications using Vue 3, TypeScript, and Laravel. Skilled in developing responsive, API-driven features, integrating third-party platforms

Education

University Batna 2

Master's Degree, Distributed Information Systems Engineering and Security

Sep 2018 – Jul 2023

Batna, Algeria

Experience

Originova

Web Developer

Sep 2023 – Jan 2024, Sep 2025 – Present

On-site

- Developed RESTful APIs and full-stack features using Laravel, Vue 3, TypeScript, and PostgreSQL.
- Implemented reservation workflows for the Qwikly platform and integrated third-party services for partner applications.
- Developed the Urban Jump frontend using Vue 3 and TypeScript, integrating REST APIs and payment services to support park browsing, ticket purchases, and online reservations.
- Contributed to Spotter Maps v2.0 by implementing new features and enhancing frontend and backend functionality.
- Resolved production issues, optimized application performance, and improved code reliability across multiple projects.
- Collaborated with designers, product managers, and backend developers to deliver high-quality, production-ready web applications.

Projects

Pharmacies On-Call (Pharmacies DZ Garde) | *Vue 3, TypeScript, PrimeVue, Tailwind CSS, Pinia*

- Developed a web platform that helps users quickly locate on-call pharmacies across Algeria.
- Integrated Google Maps, geolocation, and multilingual support (Arabic, French, and English) to improve accessibility.
- Delivered a production-ready application currently serving more than 3,000 users with responsive and user-friendly interfaces.

Spotter Map | *Ionic, Vue 3, TypeScript, Capacitor, Laravel*

- Developed a cross-platform mobile application available on the [Google Play](#) and the [App Store](#).
- Built mobile features using Ionic, Vue 3, TypeScript, and Capacitor while integrating REST APIs.
- Contributed to backend development by implementing and improving Laravel APIs supporting the mobile application.

Chouf Dar | *Vue 3, TypeScript, Laravel, PostgreSQL*

- Developed a full-stack property rental platform using Vue 3, Laravel, and PostgreSQL.
- Implemented property listings, advanced search and filtering, user authentication, and REST API integration.
- Designed responsive user interfaces and optimized application performance for a seamless user experience.
